

Government of Jammu and Kashmir
J&K e-Governance Agency, IT Department
Civil Secretariat, J&K

Circular

Subject: Guidelines issued by CERT-In regarding mandatory requirement of Safe to host Certificate for hosting any application in State Data Center.

It is submitted that J&K e-Governance Agency, Information Technology Department vide its circular **No.02-JakeGA of 2022 dated 28-03-2022** (copy enclosed) requested all the departments and their nodal agencies to get the security audit of their websites/applications hosted at SDC conducted from CERT-In, empaneled agencies besides submitting same to this agency. However, it is regretfully intimated that only few departments have got the mandatory exercise completed.

It is once again brought to you kind notice that to protect information in cyber space, reduce vulnerabilities and minimize damage from cyber incidents and most importantly, to protect Govt data hosted in SDC, it is imperative that websites and applications are audited and updated with latest security certificates on periodic basis as per the guidelines issued by the Cert-In.

Moreover, as per IT Act, it is mandatory to have security audit of all the application and web services done in order to be eligible for hosting in State Data Centre (SDC)..

In view of above, it is once again requested that **the security audit of the websites/applications be got completed within 1 month from date of issuance of this circular failing which the services will be shut from State Data Centre.** It is further informed that no further websites/applications shall be hosted at State Data Centre without the "Safe to Host" certificate. The '**Safe to Host**' certificate of the applications/ websites will be mandatory in order to avail the continuous hosting services of State Data Centre.

Besides, the departments are also requested to follow the below advisory:

- The website should be audited by the CERT-IN empanelled agencies and it should be cleared for the security audit to be finally host on J&K Data Centre servers. The required changes suggested in the audit report have to be carried out by the developing agency to remove all the

Handwritten mark

I/274752/2023

identified vulnerabilities.

- The Security Audit should be done as and when any changes are made in the source code.
- It shall be ensured that all websites/applications, their respective CMS (Content Management System), 3rd party plug-ins, codes etc., are updated to the latest versions
- All websites/applications are to be monitored on daily basis for ruling out any security compromise.
- The websites/applications integrated with any 3rd party applications or using APIs for external communication such allow such communications through encrypted channel only.

Further, the list of websites/applications hosted at SDC pending receipt of safe to host certificates is attached as **Annexure A** and list of Cert-In empaneled agencies attached as **Annexure-B** for information and further appropriates in the matter.

In view of the sensitivity of the matter, it is requested that departmental nodal officers may kindly be instructed to get the needful done at the earliest. For any queries or support in this regard, Project Manager Ms. Saima Mir (9419065781) may be contacted by them.

Encls(02)
